Dear Labor:

I have become aware of the legislation by the DOL which could potentially limit my ability to trade options within my IRA.

I am completely fed up with the Nanny State mentality. I Do NOT want the government involved in my health care and I do NOT want the government involved even to the extent they already are in my retirement planning! SSA has ALREADY done such a terrible job managing my SS investments that I have ZERO confidence I will ever see a dime from Social insecurity. Why would I trust ANY federal agency to know what is best for my retirement when your are now 18 trillion in Debt?

I have been educated and have permission from my broker to trade options. I may make mistakes and I will incur losses, but trading options is the ONLY path I see to realizing the gains I need for a secure retirement! So leave them alone.

Sincerely,

MR Scott Shaw
